

SOFTlogic Conditioning System

with Brine Recovery System (Patented Technology)

Urban or Rural Solution

With the H2O SOFTlogic Conditioning System you bring household water to a new level of quality. Save operating expenses by using up to 50% Less Salt and 50% Less Water per regeneration than conventional softeners. You SAVE Money, Water and Energy.

Conditioned Water

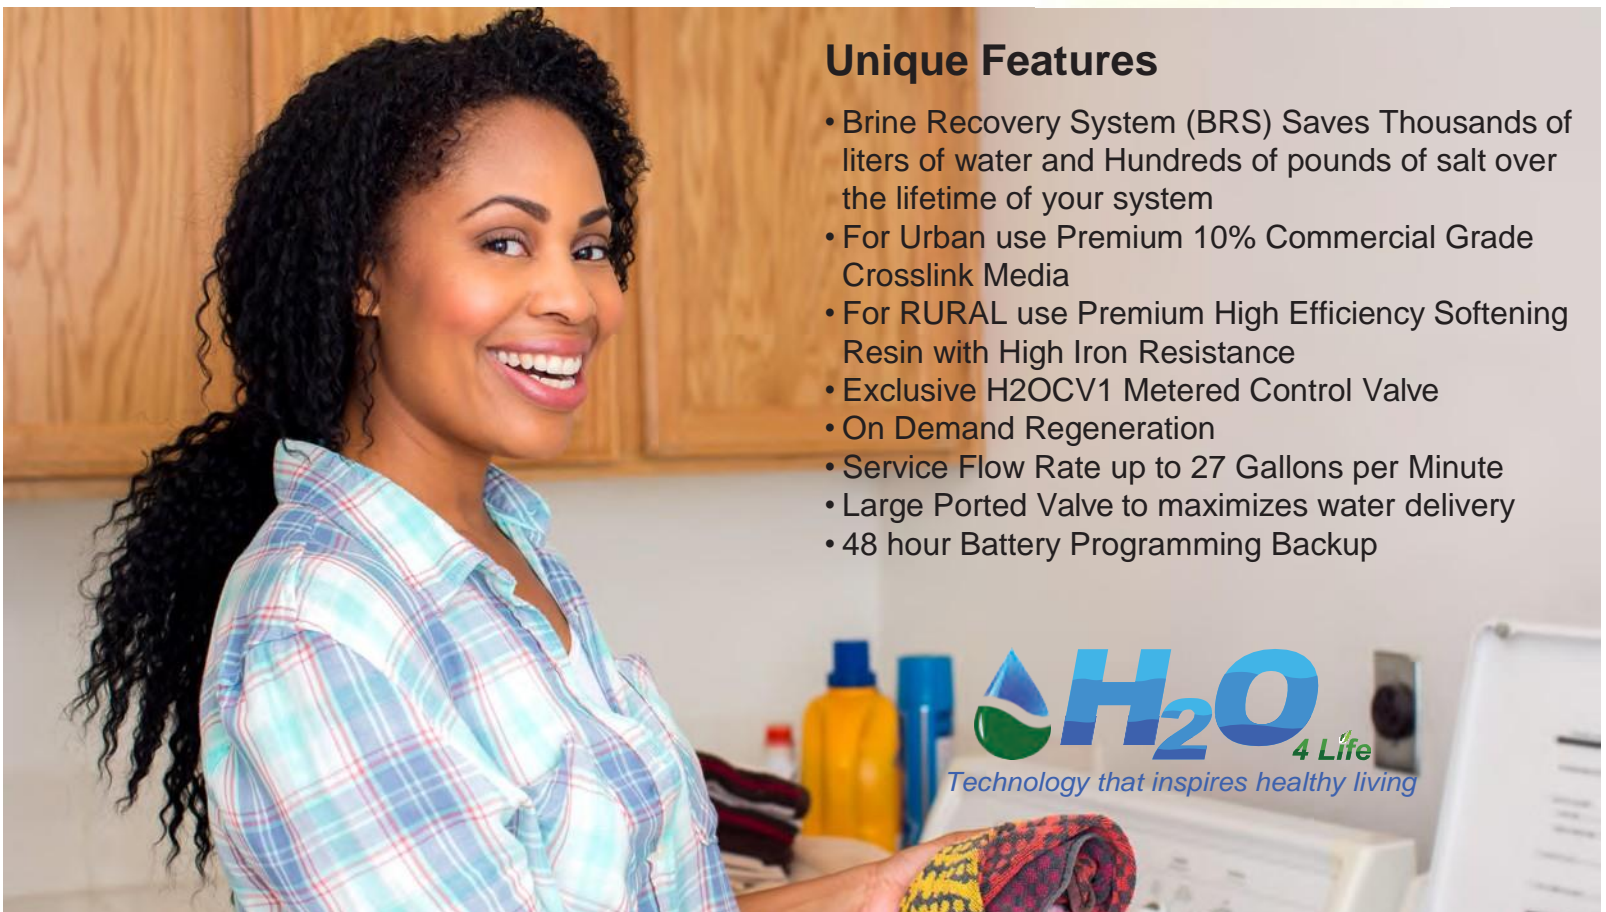

It's clear, removing hard minerals from your home's water makes a difference you and your family can Feel, See and Appreciate.

Over time, conditioned water savings can really add up. For instance, conditioned water not only delivers greater washing power, it reduces the amount of soap you need to use by 50%. Conditioned water saves money, time and the environment.

Unique Features

- Brine Recovery System (BRS) Saves Thousands of liters of water and Hundreds of pounds of salt over the lifetime of your system
- For Urban use Premium 10% Commercial Grade Crosslink Media
- For RURAL use Premium High Efficiency Softening Resin with High Iron Resistance
- Exclusive H2OCV1 Metered Control Valve
- On Demand Regeneration
- Service Flow Rate up to 27 Gallons per Minute
- Large Ported Valve to maximizes water delivery
- 48 hour Battery Programming Backup

SOFTlogic Conditioning System

What is inside the tank? with Brine Recovery System (Patented Technology)

For Urban Units we use Premium 10% Commercial Grade Crosslink Resin, this Resin is specifically designed for chlorinated water. It also last 75% longer than standard Softening Resin.

For RURAL we use Premium High Capacity Softening Resin, this Fine Mesh Resin is specially designed for well water. It also removes Clear Water Iron up to 10 parts per million (ppm).

How does the Brine Recovery System (BRS) work?

The BRS is a patented design using an electric ball valve to divert water during a regeneration, from waste water drain line to the brine tank. The fully electronic control will calculate when resin bed regeneration is necessary and will initiate the cycle, automatically and selectively recovering salt and water with each regeneration.

The BRS will annually save users thousands of litres of water and hundreds of pounds of salt. Up to 21% in reduced salt usage that will not go down the drain and into the environment. That adds up to big savings in water bills and salt purchases. Save Water, Salt and Money!

With your H2O SOFTlogic Conditioning System ENJOY:

- Water That Feels Better
- Softer, smoother, healthier looking skin and hair
- Brighter, softer, cleaner clothes.
- Sparkling clean dishes. Spot-free!
- Easier to clean kitchen sinks and bathtubs.
- Save up to 50% on soaps, shampoos, cleansers and detergents.
- Reduced scale build-up in plumbing systems and appliances.
- Save up to 21%-29% on your water heating bills.
- Extends life of water using appliances.
- SAVE MONEY, TIME and THE ENVIRONMENT

Urban Solutions We Design your Conditioner for your Home.

| Part# | Description | Size incl. Valve |
|--------------------|--|------------------|
| H2O SOFTLogic30U | Premium 10% Crosslink 30k, BRS, On Demand | 10x54 |
| H2O SOFTLogic 50U | Premium 10% Crosslink 50k, BRS, On Demand | 10x64 |
| H2O SOFTLogic 65U | Premium 10% Crosslink 65k, BRS, On Demand | 12x58 |
| H2O SOFTLogic 90U | Premium 10% Crosslink 90, BRS, On Demand | 10x57 Dual Tank |
| H2O SOFTLogic 120U | Premium 10% Crosslink 120k, BRS, On Demand | 12x50 Dual Tank |

Rural Solutions We Design your Conditioner for your Home.
