

H2O SOFTlogic Conditioning System

with Brine Recovery System (Patented Technology)

H2O SOFTlogic Conditioning System

with Brine Recovery System (Patented Technology)

What is inside the tank?

For URBAN Units we use Premium 10% Commercial Grade Crosslink Resin. This Resin is specifically designed for chlorinated water. It also last 75% longer than standard Softening Resin.

For RURAL we use Premium High Capacity Softening Resin. This Fine Mesh Resin is specially designed for well water. It also removes Clear Water Iron up to 10 parts per million (ppm).

How does the Brine Recovery System (BRS) work?

The BRS is a patented design using an electric ball valve to divert water during a regeneration, from waste water drain line to the brine tank. The fully electronic control valve will calculate when resin bed regeneration is necessary and will initiate the cycle automatically, selectively recovering salt and water with each regeneration.

The BRS will save users thousands of litres of water and hundreds of pounds of salt over the lifetime of the system. This adds up to 21% in reduced salt usage that will not go down the drain and affect the environment. Consider the savings in water expenses and salt purchases. Save Water, Salt and Money!

Urban Solutions We Design your Conditioner for your Home.

Part#	Description	Size incl. Valve
H2O Softlogic 30U	Premium 10% Crosslink 30K, BRS, On Demand	10x54
H2O Softlogic 50U	Premium 10% Crosslink 50K, BRS, On Demand	10x64
H2O Softlogic 65U	Premium 10% Crosslink 65K, BRS, On Demand	12x58
H2O Softlogic 90U	Premium 10% Crosslink 90K, BRS, On Demand	10x57 Dual Tank
H2O Softlogic 120U	Premium 10% Crosslink 120K, BRS, On Demand	12x50 Dual Tank

Rural Solutions We Design your Conditioner for your Home.

Part#	Description	Size incl. Valve
H2O Softlogic 30R	Premium High Efficiency Media 30K, On Demand	10x54
H2O Softlogic 50R	Premium High Efficiency Media 50K, On Demand	10x64
H2O Softlogic 65R	Premium High Efficiency Media 65K, On Demand	12x58
H2O Softlogic 90R	Premium High Efficiency Media 90K, On Demand	10x57 Dual Tank
H2O Softlogic 120R	Premium High Efficiency Media 120K, On Demand	12x50 Dual Tank

Urban or Rural Solution

With the H2O SOFTlogic Conditioning System you bring household water to a new level of quality. With soft water, the lifespan of appliances and sanitary fixtures can be extended avoiding expensive repairs and replacement costs. **You SAVE Money, Water and Energy.**

Soft Water

It's clear, removing hard minerals from your home's water makes a difference you and your family can Feel, See and Appreciate. Over time, soft water savings can really add up. For instance, conditioned water not only delivers greater washing power, it reduces the amount of soap you need to use by up to 75%. Soft water saves money, time and the environment.

Whole Home Conditioning System

H2O SOFTlogic

H2O SOFTlogic Conditioning System

with Brine Recovery System (Patented Technology)

With the SOFTlogic Water Conditioner you Improve Your Family's Quality of Life. Softened Water Saves you Time and Money.

Unique Features

- Made in Canada
- BRS Brine Recovery System Save Thousand of liters of water and Hundreds of pounds of salt over the lifetime of your system
- For URBAN Use - Premium 10% Commercial Grade Crosslink Media
- For RURAL Use - Premium High Efficiency Softening Resin with High Iron Resistance
- Exclusive H2OCV1 Metered Control Valve
- On Demand Regeneration
- Service Flow Rate up to 27 Gallons per Minute
- Large Ported Valve to maximize water delivery
- 48 hour Battery Programming Backup

In the Bathroom

- Save up to 75% on soaps and shampoo
- Healthier and Softer skin & hair
- No more water spots & soap scum
- No more build up on showers, tubs, sinks & toilets

In the Kitchen

- Save 75% on dishwasher detergent
- Sparkling fixtures
- Save time on cleaning (No Water Spots)

Plumbing and Appliances

- Increase water heater efficiency by 29%
- Improve water pressure and flow rates
- Appliances & water heaters last longer with the elimination of mineral build up
- Eliminate spots, streaks and scum on fixtures
- Extend the life of fixtures, toilets, sinks and appliances

In the Laundry

- Increase your clothing and linen life span
- Enjoy softer towels and linens
- Eliminate hard water maintenance issues on your washing machine
- Use 75% less detergent

With your H2O SOFTlogic Conditioning System ENJOY:

- Water That Feels Better
- Softer, smoother, healthier looking skin and hair
- Brighter, softer, cleaner clothes
- Sparkling clean dishes (Spot Free)
- Easier to clean kitchen sinks and bathtubs
- Save up to 75% on soaps, shampoos, cleansers and detergents
